Although it is not known what the budget is for this season, the total budget for the second and third seasons is 15,100,000 euros (\$16,873,797 at the time). [50] According to Ferry Gonzalez, there will be many references to Season 2 in Season 3. This seems to refer to the fact that many characters are re-accumulated into villains, but with different identities from those of previous cases. Five accompanies villains from the first season of Return: Stormy Weather, Mr. Dove, Puppeteer, Reflecta, Gamer, Lady WiFi and Princess Scents Three of the second season are also back: Giantan, Zumziu and the Dark Owl. During Gamer 2.0, most of the accompanies reappear, including The Tempest, Mr. Pigeon, The Puppeteer, Reflecta and apparently Gamer, though each of them returns to another episode. Few the accumulated signs are accumulated with new identities: Purple as Chameleon; Aaliyah and Nino as Oblio; Kagami as Oi-Chan; Sabrina as Miraculer; Chris Lachiff as Tymer, Andre and Audrey Bourgeois as Heart Hunter and Chloe as Queen of Wonders. One episode of Season 3 was tedious to have a reference to Glaciator. [52] With the introduction of a new villain at the end of the previous season, several episodes were not named after an accumulating man or a miraculous possessive owner, but styons- Refleddol and Kalinka. Season 3's opening sequence is the same as season 2. [53] The actual viewing order for this season is through the production code. [54] Like season 2, Netflix splits this season into two parts. This season is the first to have four studios anime for this season, with the previously known, SAMG and DQ. Assembly joins Refledol. [55] Symbiosis only joined Bakerix, Backwarder and Startrain. [56] This season (currently) holds the record for the latest characters added to the French superhero. If we include variations of current or future characters, the count becomes a total of 8 new members. New members: Ryuko (courtesy Tsurugi Tsuruji) Viperion (aka Chamuka Koufein) Pegasus (Max Kante) Kings Monkey (courtesy Kim) Bunix (combinator: Multimouse (Marinte Dupain-Cheng), whose miraculous is boring to be worn by Meilen Pill in the future. Aspic (also called Adrien Agreste), whose miracle was later worn and used by Luca Koufein. Jade Turtle (Wang Fu), whose miracle is worn temporarily and is used by Nino Lahif. This season of the miraculous story has several plot arcs that begin or progress throughout the season, ending with the Battle of the Miraculous. These include: Arcs of Marinette: Marinette's love life is strained, with Adrien, Cat Noir and Luka pulling her in different directions. This is shown in Weredad, Silencer, Silencer, Smoothing, Desperada, Icarus Gozen and Cat Blanc, and ends with her giving Kagami and Adrien develop a relationship until she begins to pay attention to Luke. As Kalibug learned more about the power of the miraculous, she began to build her team and give her friends a Miracle to help her save the day. It also begins to increase its own strength. She also began her training with Master Fu to become the next Guardian of the Miraculous. This is shown in Reflekdol, Miraculer, Desperada, Startrain, Kwambuster, Ikari Gozen, Timetagger and Party Crasher and ends with the revealed identities of team members likely forcing them to retire, and her loss of master Gozen's guidance after Mott captures him. Being Kalinka takes a lot from Marinket, as new and old enemies take their time from being Marinket; she begins to doubt her ability to keep everything together. This is shown in Gamer 2.0, Weather Storm 2 and Puppeteer 2 and ends with in Luke and Kalinka, doing the same with Kat Noir.
